

7-20-20

*Message from the director of NJSIAA*

You may see the headlines surrounding the Governor's announcement this afternoon that drills, practices and competition for contact/high risk sports may start today, Monday, July 20th. Please take the time read the entire text of the Governor's announcement which specifically states that this announcement **does not pertain to sports under the oversight of either the NJSIAA** or NCAA, these sports must abide by those associations' rules. Today's date was always included in Executive Order [#149](#) which outlined the return to youth athletics. Thank you!
