| Benchmark Assessment (Proficiency) ELA Rates* | Please share results of analysis of % passing, including YTD analysis by grades and subgroups.<br>*Identify patterns by grade/subgroups<br>*Identify patterns by chronic absenteeism<br>*Identify patterns by students with chronic disciplinary infractions | Grade             | Cycle 1 | Cycle 2 | Cycle 3 | Cycle 4 | During the 2022-2023 School Year:<br>English benchmarks were given on the LinkIt Platform both to drive instruction (the beginning benchmark) and to predict proficiency rates on the NJSLA (ending benchmark).<br><br>In Grade 1 on the ELA benchmark there was an improvement of 15.3%. In Grade 2 on the ELA benchmark there was an improvement of 6.2%. In Grade 3 on the ELA benchmark there was an improvement of 16.1%.<br><br>Oral Running Records are another measure of student's reading progress. The first Oral Reading Records in Grade 1 64% started at below grade level, 19% were at grade level and 17% were above grade level. The third Oral Reading Records in Grade 1 64% were still below grade level, 3% remained at grade level (a decrease of 16%, very good) and 33% (an increase | Teachers and Instructional Coaches are promoting whole group, small group, guided practice and independent work in all EAL lessons.<br><br>9.2% of SWD are chronically absent at Cold Springs School (MD, AUT, PSD PSD in GE, ICR/Supplemental Support, Speech Only).<br><br>Each year, more students enroll during the school year than leave. We are a growing district, with a lot of incoming minority students.<br><br>As American society has transformed, so has |

| Learning Walks / Informal Classroom Observations | *Identify # teachers to evaluate<br>*Identify % of teachers on CAP in the previous school year<br>*Identify instructional trends<br>*Identify professional development needs | Evaluation framework                    | Marzano Teacher Observation Model | 72 teachers have been evaluated under the Marzano Teacher Evaluation Tool. It is new to the school this year. All tenured teachers have had 2 observations; 1 long announced observation and 1 short unannounced observation. Non tenured teachers (20 of the 72, approximately 27%) have 1 long observation and 3 short, unannounced observations. The lone teacher on a CAP who is tenured had 4 observations and is working on his CAP plan.<br><br>All teachers have successfully completed the Professional Development Plan for the school: Continue to improve the culture and climate of the school district for students, staff, families and community members. And to also monitor the Responsive Classroom pilot program at Cold Springs School. As well as to continue to identify the instructional and learning needs of grades K-3 utilizing all data points and | Teachers appreciate Marzano Teacher Evaluation Tool as it records the Science of teaching and is completely observable. It has been a goal to bring all teachers to an "Applying" rating which we have been able to do with about 95% of the teachers. A small proportion of teachers have been able to achieve a "Innovating" rating which is about the "art" of teaching. |

| Parent and Family Involvement                     | Parents participate on the ESSA Committee and bring valuable insight and concerns to the committee.                                                               | NJ Tiered Reading grant was welcomed by the parents of Cold Springs School because reading is foundational for student success in school and Covid-19 has set all children in school during the time of the pandemic back in terms of learning and socialization. The aftermath of Covid 19 remote/hybrid learning loss is real and ongoing. Teachers are remediating constantly to support students. | The district is hiring basic skills instructors this year and next year |
| Closing the Achievement Gap and Family Engagement | Closing the achievement gap is an ongoing concern and remediation after school and during the summer months demonstrates the partnership between home and school. | Parents have shown support for summer support for reading practice and remediation by bringing their children to school during the summer in ever increasing numbers.                                                                                                                                                                                                                                 | Teachers have created user friendly support work in reading             |

## Process Questions and Growth and Reflection Tool

| Component                                                                | Indicator Descriptor Level |   | Overall Strengths Summary | Areas of Focus Summary                                                                                                                                                                  |

| Culture   | 1                          | A 2-Emerging   | We use the results of a teacher survey to gauge how teachers and staff feel about the year in question. Mutual respect is what we strive for in our day to day actions between all of our stakeholders, especially teaching staff and parents. | Social Emotional learning is paramount in dealing with the fallout from the Covid/remote/hybrid teaching/learning environment of the last 30months. This school year has shown us the gaping holes in our students coping mechanisms, conflict resolution and attention to learning. We need to concentrate on the "learning to leaning" readiness of our students and support our teachers and staff as they tackle the unknown effects of the pandemic on education and socialization. |

| Teacher and Principal Effectiveness | 1                          | A 2-Emerging | Reach based frameworks are used to evaluate teachers and principals. The Marzano evaluation tool is new to our school and district and there has been overwhelming support from teachers and administration. | We have moved to a new teacher and principal evaluation system- the Marzano Method. It is hoped/expected that academic core content teachers will be given an equal footing with arts and specials teachers in evaluation techniques. We hope to better support those teachers that show need by working with them multiple times between evaluations. Our hopes have been realized. Core content area teachers feel that there teaching is valued and evaluated correctly under Marzano. |

## Priority Performance Needs and Root Cause Analysis

| Area of Focus for SMART Goals | Priority Performance Need                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Possible Root Causes (Based upon the CNA and data analysis, what factors are most likely to have contributed to this)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Targeted Subgroup (s) | Strategies to Address Challenge (What does the root cause imply for next steps in improvement planning?) |                                                                                                                                                                |

| Effective Instruction         | Some students enter the school without reading readiness skills. In grades 1-3, some students are challenged by phonemic awareness, word recognition, fluency, and reading comprehension as measured by previous year's state assessment, benchmarks and reading and writing data cluster analysis. A part time BSI will start in 4th quarter (if possible, or September 2023) to augment skills in math and ELA because NJSLA data shows a decrease in student skills. 2 other part time BSI are being hired in Spring of 2023 and will continue. ELA skills need to be strengthened. | <p>COVID-19 and the surrounding circumstances required students had to endure various transitions throughout the school year. They were forced to learn from numerous learning models (hybrid, in person and remote) and be prepared to switch from one to the other without notice. Education, as we once knew it, fundamentally changed with little notice. Students' learning was undoubtedly hindered.</p> <p>66.45% of Cold Springs School's students belong to the subgroup of low income students. The digital divide often affects low income students. They sometimes have less access to technology at home compared to other students. This factor combined with the circumstances surrounding COVID-19, as noted above, has widened the achievement gap.</p> <p>3. Some students are classified as homeless and need hot spot computer access, school supplies and winter/fall coats.</p> <p>4. The student mobility rate for the district is 25%. When students move in and out of the district, it affects the continuity of instruction and can result in skills gaps</p> | All Populations K-3   | 1                                                                                                        | Provide remediation to address skill gaps. Hire a Basic Skills Instructor, part time to increase student skills in ELA .                                       |

| Effective Instruction         | Some students enter the school without readiness skills for success in basic mathematics. In grades 1-3, some students exhibit a lack of proficiency in problem solving, number sense and have other gaps in necessary mathematical skills. This has been measured by state assessments, pre and post benchmarks, mid-term and final grades. Mathematical skills need to be strengthened. A part time BSI will start in 4th quarter to augment skills in math and ELA because NJSLA data shows a decrease in student skills.2 other part time BSI are being hired in Spring of 2023 and will continue. COVID-19 and the surrounding circumstances required students had to endure various transitions throughout the school year. They were forced to learn from numerous learning models (hybrid, in person and remote) and be prepared to switch from one to the other without notice. Education, as we once knew it, fundamentally changed with little notice. | Some students enter the school without readiness skills for success in basic mathematics. They were forced to learn from numerous learning models (hybrid, in person and remote) and be prepared to switch from one to the other without notice. Education, as we once knew it, fundamentally changed with little notice. Students' learning was undoubtedly hindered. 66.45% of Cold Springs School's students belong to the subgroup of low income students. The digital divide often affects low income students. They sometimes have less access to technology at home compared to other students. This factor combined with the | All Populations K-3   | 1                                                                                                        | Provide remediation to address skill gaps.                                                                 |

| Assessment/Data Analysis      | By June 30, 2024, at least 50% of students in grade 2 will be able to utilize individualized learning plans (differentiation) and technology tools to address skill gaps utilizing individualized learning plans. Progress will be measured by performance on state and in-house designed assessments and LinkIt benchmarks. | <p>Student achievement across the curriculum is below grade level for some students due to skill gaps. This is evidenced by student data from previous years' SGOs, state assessments, pre and post benchmarks and teacher request for training. COVID-19 and the surrounding circumstances required students had to endure various transitions throughout the school year. They were forced to learn from numerous learning models (hybrid, in person and remote) and be prepared to switch from one to the other without notice. Education, as we once knew it, fundamentally changed with little notice. Students' learning was undoubtedly hindered.</p> <p>66.45% of Cold Springs School's students belong to the subgroup of low income students. The digital divide often affects low income students. They sometimes have less access to technology at home compared to other students. This factor combined with the circumstances surrounding COVID-19, as noted above, has widened the achievement gap.</p> <p>3. Some students are classified as homeless and need hot spot computer access, school supplies and winter/fall coats.</p> <p>4. The student mobility rate for the district is 25%. When students move in</p> | All Populations K-3   | 1                                                                                                        | Provide remediation to address skill gaps.                                                                                                                                                                                                                              |

| Climate & Culture<br>-<br>Attendance/Behavior | By June 30, 2024, there will be an increase of 5% in parental involvement and participation in academic events relating to their students as measured by sign in sheets and attendance records. Develop SEL curriculum and onboard an SEL program. | Student learning and social emotional well being is imperative to creating a positive school environment. There must be a support system in the school building and home-school collaboration.. COVID-19 and the surrounding circumstances required students had to endure various transitions throughout the school year. They were forced to learn from numerous learning models (hybrid, in person and remote) and be prepared to switch from one to the other without notice. Education, as we once knew it, fundamentally changed with little notice. Students' learning was undoubtedly hindered.<br>66.45% of Cold Springs School's students belong to the subgroup of low income students. The digital divide often affects low income students. They sometimes have less access to technology at home compared to other students. This factor combined with the circumstances surrounding COVID-19, as noted above, has widened the achievement gap.<br>3Some students are classified as homeless and need hot spot computer access, school supplies and winter/fall coats.<br>4. The student mobility rate for the district is 25%. When students move in and out of the district, it affects the continuity of instruction and can result | All Populations<br>K-3 | 1                                                                                                        | Develop a SEL curriculum and onboard a SEL program ( such as Responsive Classrooms) Parent involvement activities including workshops. Extra supports for students and subgroups (homeless students, English Language Learners, students with disabilities, homeless students, and economically disadvantaged students) will be provided as individual needs are known. |

| Area of Focus for SMART Goals | Priority Performance Need | Possible Root Causes (Based upon the CNA and data analysis, what factors are most likely to have contributed to this | Targeted Subgroup (s) | Strategies to Address Challenge (What does the root cause imply for next steps in improvement planning?) |
|-------------------------------|---------------------------|----------------------------------------------------------------------------------------------------------------------|-----------------------|----------------------------------------------------------------------------------------------------------|
|                               |                           | in skills gaps. Chronic Absenteeism across some grade levels is worrisome for students.                              |                       |                                                                                                          |

## SMART Goal 1

By June 30, 2024, there will be a 5% increase in the number of students in grade 3 who demonstrate increased literacy skills as measured by Linkit Benchmarking and/or state assessment.

**Priority Performance**                      Some students enter the school without reading readiness skills. In grades 1-3, some students are challenged by phonemic awareness, word recognition, fluency, and reading comprehension as measured by previous year's state assessment, benchmarks and reading and writing data cluster analysis. A part time BSI will start in 4th quarter (if possible, or September 2023) to augment skills in math and ELA because NJSLA data shows a decrease in student skills. 2 other part time BSI are being hired in Spring of 2023 and will continue. ELA skills need to be strengthened.

**Strategy 1:**                              Provide remediation to address skill gaps. Hire a Basic Skills Instructor, part time to increase student skills in ELA .

**Strategy 2:**                              Provide ELA professional program for development for staff for aligning curriculum and lesson plans to the NJSLs, and reading interventions Tiers I,II, & III.

**Strategy 3:**                              Acquire resources for all literacy programs.  
Provide materials, supplies etc to homeless students as determined by needs assessment.

**Target Population:**                      All Populations K-3

## Interim Goals

### SMART Goal 1

| End of Cycle | Interim Goal                                                                                                                                                                                | Source(s) of Evidence                                                                            |
|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------|
| Nov 15       | By November 15, 2023 there will be a 1% increase in the number of students in grade 3 who demonstrate increased literacy skills as measured by Linkit Benchmarking and/or state assessment. | State assessments, LinkIt Benchmarks, Oral Running Records, IXL Diagnostic, In-house assessments |

| End of Cycle | Interim Goal                                                                                                                                                                                 | Source(s) of Evidence                                                                            |

## SMART Goal 2

By June 30, 2024, there will be a 3% increase in the number of students in grade 3 who demonstrate an understanding of number sense and problem solving as measured by state assessments and LinkIt benchmarks

### Priority Performance

Some students enter the school without readiness skills for success in basic mathematics. In grades 1-3, some students exhibit a lack of proficiency in problem solving, number sense and have other gaps in necessary mathematical skills. This has been measured by state assessments, pre and post benchmarks, mid-term and final grades. Mathematical skills need to be strengthened. A part time BSI will start in 4th quarter to augment skills in math and ELA because NJSLA data shows a decrease in student skills. 2 other part time BSI are being hired in Spring of 2023 and will continue. COVID-19 and the surrounding circumstances required students had to endure various transitions throughout the school year. They were forced to learn from numerous learning models (hybrid, in person and remote) and be prepared to switch from one to the other without notice. Education, as we once knew it, fundamentally changed with little notice.

### Strategy 1:

Provide remediation to address skill gaps.

### Strategy 2:

Provide mathematics professional development for staff that is job embedded, on-going and evidenced based.

### Strategy 3:

Actively engage students in skills to bolster students' mathematical comprehension.

### Target Population:

All Populations K-3

## Interim Goals

### SMART Goal 2

| End of Cycle | Interim Goal                                                                                                                                                                                                   | Source(s) of Evidence |
|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|
| Nov 15       | By November 15, 2023, there will be a 1% increase in the number of students in grade 3 who demonstrate an understanding of number sense and problem solving as measured by LinkIt benchmarks.                  | LinkIt Benchmarks     |
| Feb 15       | By February 15, 2024, there will be a 2% increase in the number of students in grade 3 who demonstrate an understanding of number sense and problem solving as measured LinkIt benchmarks.                     | LinkIt Benchmarks     |
| Apr 15:      | By April 15, 2024 there will be a 2.5% increase in the number of students in grade 3 who demonstrate an understanding of number sense and problem solving as measured by LinkIt benchmarks.                    | LinkIt Benchmarks     |
| Jul 1        | By June 30, 2024, there will be a 3% increase in the number of students in grade 3 who demonstrate an understanding of number sense and problem solving as measured by state assessments and LinkIt benchmarks | LinkIt Benchmarks     |

## SMART Goal 3

By June 30, 2024, at least 50% of students in grade 2 will be able to utilize individualized learning plans (differentiation) and technology tools to address skill gaps utilizing individualized learning plans. Progress will be measured by performance on state and in-house designed assessments and LinkIt benchmarks.

**Priority Performance** By June 30, 2024, at least 50% of students in grade 2 will be able to utilize individualized learning plans (differentiation) and technology tools to address skill gaps utilizing individualized learning plans. Progress will be measured by performance on state and in-house designed assessments and LinkIt benchmarks.

**Strategy 1:** Provide remediation to address skill gaps.

**Strategy 2:** Acquire resources: 1) 1-1 Technology Initiative to overcome the Digital Divide consumables and supplies. Supplies for STEM

**Strategy 3:** Provide professional development for staff members. This will include professional development on aligning curriculum and lesson plans to the NJSLs using the On-Course program.  
Provide materials, supplies etc to homeless students as determined by needs assessment

**Target Population:** All Populations K-3

## Interim Goals

## SMART Goal 4

By June 30, 2024, there will be an increase of 5% in parental involvement and participation in academic events relating to their students as measured by sign in sheets and attendance records. SEL curriculum will be implemented throughout the school year.

**Priority Performance** By June 30, 2024, there will be an increase of 5% in parental involvement and participation in academic events relating to their students as measured by sign in sheets and attendance records. Develop SEL curriculum and onboard an SEL program.

**Strategy 1:** Develop a SEL curriculum and onboard a SEL program ( such as Responsive Classrooms) Parent involvement activities including workshops. Extra supports for students and subgroups (homeless students, English Language Learners, students with disabilities, homeless students, and economically disadvantaged students) will be provided as individual needs are known.

**Strategy 2:** PD for Responisve Classroom (SEL)- ongoing, impactful.

**Strategy 3:**

**Target Population:** All Populations K-3

## Interim Goals

### SMART Goal 4

| End of Cycle | Interim Goal                                                                                                                                                                                                                                    | Source(s) of Evidence                                       |
|--------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| Nov 15       | By November 15, 2023, there will be an increase of 2% in parental involvement and participation in academic events relating to their students as measured by sign in sheets and attendance records. SEL curriculum/program will be implemented. | Sign in sheets and attendance records, teacher lesson plans |

| End of Cycle | Interim Goal                                                                                                                                                                                                                                                   | Source(s) of Evidence                                       |
|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| Feb 15       | By February 15, 2024, there will be an increase of 3% in parental involvement and participation in academic events relating to their students as measured by sign in sheets and attendance records. SEL curriculum/program will be implemented.                | Sign in sheets and attendance records, teacher lesson plans |
| Apr 15:      | By April 15, 2024, there will be an increase of 4% in parental involvement and participation in academic events relating to their students as measured by sign in sheets and attendance records. SEL curriculum/program will be implemented.                   | Sign in sheets and attendance records, teacher lesson plans |
| Jul 1        | By June 30, 2024, there will be an increase of 5% in parental involvement and participation in academic events relating to their students as measured by sign in sheets and attendance records. SEL curriculum will be implemented throughout the school year. | Sign in sheets and attendance records, teacher lesson plans |

|---|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------|
| x | The results of the Comprehensive Needs Assessment are included in the designated tabs. If applicable, the Comprehensive Data Analysis and Needs Assessment process was completed in collaboration, and with the concurrence of the assigned Regional Support Team (RST) member from the Office of Comprehensive Support. (Note: RSTs are assigned to LEAs with CII, CSI, or have at least three ATSI or TSI schools) |                                         |
| x | The Annual School Plan includes at least three SMART goals with at least one area of focus being Effective Instruction. If my school was designated as CII, CSI, ATSI or TSI, the plan includes a fourth goal. All goals address the areas of priority performance needs identified during Comprehensive Needs Assessment process. The following SMART Goal areas, denoted by a checkmark, are included in this ASP. |                                         |
| x |                                                                                                                                                                                                                                                                                                                                                                                                                      | Effective Instruction                   |
| x |                                                                                                                                                                                                                                                                                                                                                                                                                      | Effective Instruction                   |
| x |                                                                                                                                                                                                                                                                                                                                                                                                                      | Assessment/Data Analysis                |
| x |                                                                                                                                                                                                                                                                                                                                                                                                                      | Climate & Culture - Attendance/Behavior |
|   | For CII, CSI, ATSI and TSI Schools Only: The Annual School Plan includes evidence-based interventions to improve academic achievement for all students who are not yet performing on grade level, and all SIA funds will be used for evidence-based interventions that meet the strong, moderate or promising evidence tier as set forth in the Every Student Succeeds Act (ESSA).                                   |                                         |
| x | The Budget Summary includes all planned expenditures, as identified within the 'Budget Items' section of the SMART Goal pages.                                                                                                                                                                                                                                                                                       |                                         |
| x | This plan has been submitted for final review and approval by the District Business Administrator, Federal Programs Administrator, Chief School Administrator, and any other district personnel with responsibility for expenditures of federal funds to ensure all purchases and uses of funds (SIA, other Title I, other federal, and state/local) are reviewed and approved.                                      |                                         |
